- Children's National Health System
Washington, D.C.

Thank you to 2015 Children's Circle of Care Members

Children's Circle of Care members are the leading benefactors to 26 prominent children's hospitals in the United States and Canada. They are individuals, couples, or family foundations that make a contribution of \$10,000 or more to any of the participating hospitals in a calendar year.

CCC members are making an incredible impact on children's health—they provide the funding for critical research that improves outcomes, ensure that every child receives the care they need, regardless of their family's ability to pay, and support the continuing expertise of those who have dedicated their careers to children's medicine.

Millions of children in the United States and Canada come to these participating hospitals each year. Because of the generosity of CCC members, these families receive the best care possible, tailored just right for their beloved children. CCC members make this possible. For their support, the families served are most grateful.
