CHLA.org/UROLOGY

The Division of Urology at Children's Hospital Los Angeles comprises one of the largest groups of fellowship-trained and Board-certified pediatric urologists in the United States, offering care in 14 community locations. Our physicians provide comprehensive evaluation, diagnosis, treatment and follow-up care for infants, children, adolescents and young adults with congenital and acquired pediatric urology disorders.

Physicians:

Roger De Filippo, MD, FACS, FAAP

Chief, Division of Urology
Co-Director, GOFARR Laboratory for Organ Regenerative Research and Cell Therapeutics in Urology
Co-Surgical Director, CAH Comprehensive Care Clinic
Associate Professor of Urology, the Keck School of Medicine of the University of Southern California (USC)

Clinical Interests: Fetal Urology, Complex Genitourinary Reconstruction (Bladder Exstrophy, Ambiguous Genitalia and Congenital Adrenal Hyperplasia), Clinical Trials for Tissue-Engineered Transplantation of Neo-organs, Robotic Surgery

Andy Chang, MD, FACS, FAAP

Vice Chief, Division of Urology
Director, Genitourinary Oncology Program
Assistant Professor of Clinical Urology, the Keck School of Medicine of USC

Clinical Interests: Bladder Hypertrophy/Pathophysiology, Cryptorchidism, Hypospadias, Ureteropelvic Junction Obstructions, Robotic/Laparoscopic Pediatric Urologic Surgery, Vesicoureteral Reflux and Disorders of Sex Development including Congenital Adrenal Hyperplasia

Steve Kim, MD, MBA, MSCE

Director, Health Systems Innovation and Clinical Outcomes Program
Assistant Professor of Clinical Urology, the Keck School of Medicine of USC

Clinical Interests: Hypospadias Robotic/Minimally Invasive Surgery Vesicoureteral Reflux, Ureteropelvic Junction Obstruction, Hydronephrosis, Undescended Testes, Complex Genitourinary Reconstruction, Phimosis

The Division is ranked among the top hospitals in the nation for urology care in U.S. News & World Report's Best Children's Hospitals rankings.

Handling almost 12,000 yearly outpatient visits that encompass 15,000 square miles of territory serviced, and performing over 3,000 surgical procedures annually, the Division operates the largest and most extensive pediatric urology care program on the West Coast.

Children's Hospital offers the latest treatments and advanced technology, including endoscopy, laparoscopic surgery and robotic surgery, through our Minimally Invasive Surgery Program, one of the top five programs of its kind in the country.

Our research program is actively involved in both clinical and basic science research through The Saban Research Institute at Children's Hospital and the University of Southern California.

**Paul Kokorowski, MD, MPH**

Director, Robotic Surgery Program
 Co-Surgical Director, CAH Comprehensive Care Clinic
 Assistant Professor of Clinical Urology, the Keck
 School of Medicine of USC

Clinical Interests: Hypospadias, Disorders of Sexual Development including Congenital Adrenal Hyperplasia, Complex Genitourinary Reconstructive Surgery, Robotic/Minimally Invasive Surgery, Undescended Testes, Congenital Obstruction/Obstructive Uropathy

**Scott Sparks, MD**

Surgical Director, Comprehensive Stone Program
 Assistant Professor of Clinical Urology, the Keck
 School of Medicine of USC
 Renal Calculi, Hypospadias, Fetal Urology,
 Undescended Testes, Vesicoureteral Reflux and UTIs,
 Urinary Obstruction

Clinical Interests: Renal Calculi, Hypospadias, Fetal Urology, Undescended Testes, Vesicoureteral Reflux and UTIs, Urinary Obstruction

**Evalynn Vasquez, MD, MBA**

Director, Complex Reconstruction and Malformations Program
 Assistant Professor of Clinical Urology, the Keck
 School of Medicine of USC

Clinical Interests: Complex Genitourinary Reconstruction, Bladder Exstrophy, Epispadias, Hypospadias, Vesicoureteral Reflux, Hydronephrosis, Undescended Testes, Hernias/Hydroceles

Programs and Services:

- Advanced Fetal Care (Institute for Maternal Fetal Health)
- Bladder Exstrophy/Genitourinary Reconstruction
- Comprehensive Stone Program
- Congenital Adrenal Hyperplasia
- Disorders of Sex Development
- GU Tumor/Oncology
- Health Systems Innovation and Clinical Outcomes
- Robotic Surgery
- Spina Bifida
- Voiding Improvement

Honors and Recognition:

The CHLA Congenital Adrenal Hyperplasia Comprehensive Care Clinic was recognized as the first CAH Medical and Surgical Center of Excellence by CARES Foundation (Congenital Adrenal Hyperplasia Research, Education and Support) in the western United States.
