The Division of Urology at Children's Hospital Los Angeles comprises one of the largest groups of fellowship-trained and Board-certified pediatric urologists in the United States, offering care in 14 community locations. Our physicians provide comprehensive evaluation, diagnosis, treatment and follow-up care for infants, children, adolescents and young adults with congenital and acquired pediatric urology disorders.

## Providers

### Roger De Filippo, MD, FACS, FAAP

Chief, Division of Urology; Co-Director, GOFARR Laboratory for Organ Regenerative Research and Cell Therapeutics in Urology; Co-Surgical Director, CAH Comprehensive Care Clinic, Children's Hospital Los Angeles  
Associate Professor of Urology,  
Keck School of Medicine of USC

**Clinical Interests:** Fetal urology, complex genitourinary reconstruction (bladder exstrophy, ambiguous genitalia and congenital adrenal hyperplasia), clinical trials for tissue-engineered transplantation of neo-organs, robotic surgery

### Andy Chang, MD, FACS, FAAP

Vice Chief, Division of Urology; Director, Genitourinary Oncology Program, Children's Hospital Los Angeles  
Assistant Professor of Clinical Urology,  
Keck School of Medicine of USC

**Clinical Interests:** Bladder hypertrophy/pathophysiology, cryptorchidism, hypospadias, ureteropelvic junction obstructions, robotic/laparoscopic pediatric urologic surgery, vesicoureteral reflux and disorders of sex development including congenital adrenal hyperplasia

### Paul Kokorowski, MD, MPH

Director, Robotic Surgery Program; Co-Surgical Director, CAH Comprehensive Care Clinic, Children's Hospital Los Angeles  
Assistant Professor of Clinical Urology,  
Keck School of Medicine of USC

**Clinical Interests:** Hypospadias, disorders of sexual development including congenital adrenal hyperplasia, complex genitourinary reconstructive surgery, robotic/minimally invasive surgery, undescended testes, congenital obstruction/obstructive uropathy

The Division is ranked among the tops in the nation for pediatric urology care in U.S. News & World Report's Best Children's Hospitals rankings.

Annually handling almost 12,000 outpatient visits that encompass 22,000 square miles of territory serviced and performing over 3,000 surgical procedures, the Division operates the largest and most extensive pediatric urology care program on the West Coast.

Children's Hospital Los Angeles offers the latest treatments and most advanced technology, including endoscopy, laparoscopic surgery and robotic surgery, through our Minimally Invasive Surgery Program, one of the top programs of its kind in the country.

Our research program is involved in both clinical and basic science research through the Health Systems Innovation Program and The GOFARR Laboratory for Organ Regenerative Research and Cell Therapeutics at the Saban Research Institute at CHLA.

## Providers (continued)

### Joan Ko, MD

Attending Physician, Division of Urology,  
Children's Hospital Los Angeles  
Assistant Professor of Urology, Keck School of Medicine of USC

**Clinical Interest:** Complex urinary tract reconstruction

### Scott Sparks, MD

Surgical Director, Comprehensive Stone Program,  
Children's Hospital Los Angeles  
Assistant Professor of Clinical Urology,  
Keck School of Medicine of USC

**Clinical Interests:** Renal calculi, hypospadias, fetal urology, undescended testes, vesicoureteral reflux and urinary tract infections, urinary obstruction

### Evalynn Vasquez, MD, MBA

Director, Complex Reconstruction and Malformations Program, Children's Hospital Los Angeles  
Assistant Professor of Clinical Urology,  
Keck School of Medicine of USC

**Clinical Interests:** Complex genitourinary reconstruction, bladder exstrophy, epispadias, hypospadias, vesicoureteral reflux, hydronephrosis, undescended testes, hernias/hydroceles

## Programs and Services

- Advanced fetal care (Institute for Maternal-Fetal Health)
- Bladder exstrophy/Genitourinary (GU) reconstruction
- Comprehensive Stone Program
- Congenital adrenal hyperplasia
- Disorders of sex development
- GU tumor/Oncology
- Health systems innovation and clinical outcomes
- Robotic surgery
- Spina bifida
- Voiding improvement

## Honors and Recognition

The CHLA Congenital Adrenal Hyperplasia (CAH) Comprehensive Care Clinic was recognized as the first CAH Medical and Surgical Center of Excellence by the CARES Foundation (Congenital Adrenal Hyperplasia Research, Education and Support) in the western United States. CHLA is also recognized as a center of excellence for Bladder Exstrophy Care; one of only 8 pediatric institutions in the nation to be designated as a Center of Excellence by the Association of Bladder Exstrophy Community.
