The Division of Urology at Children’s Hospital Los Angeles comprises one of the largest groups of fellowship-trained and Board-certified pediatric urologists in the United States, offering care in 14 community locations. Our physicians provide comprehensive evaluation, diagnosis, treatment and follow-up care for infants, children, adolescents and young adults with congenital and acquired pediatric urology disorders.

The Division is ranked among the tops in the nation for pediatric urology care in U.S. News & World Report’s Best Children’s Hospitals rankings.

Annually handling almost 12,000 outpatient visits that encompass 22,000 square miles of territory serviced and performing over 3,000 surgical procedures, the Division operates the largest and most extensive pediatric urology care program on the West Coast.

Children’s Hospital Los Angeles offers the latest treatments and most advanced technology, including endoscopy, laparoscopic surgery and robotic surgery, through our Minimally Invasive Surgery Program, one of the top programs of its kind in the country.

Our research program is involved in both clinical and basic science research through the Health Systems Innovation Program and The GOFARR Laboratory for Organ Regenerative Research and Cell Therapeutics at the Saban Research Institute at CHLA.
Providers (continued)

**Scott Sparks, MD**
Surgical Director, Comprehensive Stone Program, Children’s Hospital Los Angeles
Assistant Professor of Clinical Urology, Keck School of Medicine of USC

**Clinical Interests:** Renal calculi, hypospadias, fetal urology, undescended testes, vesicoureteral reflux and urinary tract infections, urinary obstruction
