

Addressing Rigor, Transparency and Reproducibility in Research

Friday, October 12, 2018

Noon – 1:00 pm

The Saban Research Building Auditorium
Children's Hospital Los Angeles

Workshop Synopsis:

During this workshop, panelists will engage the audience in discussing new standards established by funding agencies, journal editors, institutional review boards and other organizations to ensure that research proposals and publications meet the highest standards regarding Rigor, Transparency and Reproducibility in scientific work including clinical trials. The workshop should be of interest to trainees as well as faculty members at all levels engaged in basic, translational or clinical research.

Objective:

The primary audience will be post-doctoral trainees and faculty members involved in biomedical (basic, translational and clinical) research. The objective of this workshop is to make the participants better aware of new policies from journal editors and funding agencies in regard to scientific rigor.

Target Audience: Faculty & Postdocs

Supported By:

The USC Center for Excellence in Research &
CHLA Office of Academic Affairs
