Children's Hospital Los Angeles is ranked among the top hospitals for neurology and neurosurgery on U.S. News & World Report's Best Children's Hospitals survey. CHLA is the largest freestanding pediatric hospital in the West performing functional neurosurgery.

The Divisions of Neurology and Neurosurgery provide a comprehensive continuum of care, bringing together services from Neurology, Neurosurgery, Psychiatry, Radiology, Physical Therapy, Occupational Therapy, Clinical Nutrition and Social Work to support care of patients.

Patients receive treatment from a comprehensive care team that utilizes the most advanced services and surgical solutions. These therapies improve outcomes for children suffering from conditions such as:

- Brain and spinal cord tumors
- Deafness
- Hydrocephalus
- Medically intractable epilepsy and more

The Division of Neurosurgery provides advanced surgical solutions, with outcome statistics that match or exceed those of other programs across the nation and beyond. Each year, the Division treats more than 5,000 patients and performs approximately 750 surgeries, while also conducting leading-edge research.
