

ABOUT CHILDREN'S HOSPITAL LOS ANGELES

Founded in 1901, Children's Hospital Los Angeles is the No. 1 pediatric hospital in California, No. 1 on the West Coast and among the top 10 in the nation with its selection to the prestigious U.S. News & World Report Best Children's Hospitals Honor Roll. Clinical care in more than 350 specialty programs and services is led by world-class physician specialists who are faculty members of the Keck School of Medicine of the University of Southern California. The Saban Research Institute of Children's Hospital Los Angeles is a leader in the field of innovative basic, translational and clinical research in pediatrics, conducting nearly 600 clinical trials. The hospital also leads one of the largest pediatric residency training programs in the nation.

Located in the heart of Los Angeles, one of the most culturally diverse cities in the U.S., Children's Hospital Los Angeles welcomes children and families from all over the world.

WE'RE EXPERTS IN CHILD HEALTH.

We're at the forefront of pediatric medicine. With our research, specialists and family-first approach, we're continually developing the best practices of today and setting the standards of tomorrow.

WHAT EVERY CHILD DESERVES.

We believe every child deserves a healthier future—and access to the best care possible is central to this belief. This is why we are making our expertise available to children across the globe, and why we train the next generation of pediatric specialists.

FAMILY AT THE CENTER.

The family is integral to a child's health—whether it's ensuring general well-being or dealing with a serious condition, we always focus on the entire family because we know the more they're involved, the greater our impact can be.

A FOCUS ON COMMUNITY.

Healthier communities create healthier and more resilient children. This means that supporting the community is inseparable from our mission to create hope and build healthier futures—for all children, and particularly the underserved.
