Health Care Provider Training Videos Discussion Questions

Improving the Health Care Visit: Tips to Providers from Young Women Video

Based on the advice to providers given by the young women in the video:

- What additional suggestions would you add?
- What have been some of your positive or negative experiences with a health care provider?
- What are two things that you will do differently when you go back to your practice?

Health Care Exam Scenarios: The Impact of Providers' Interactions with Young Women

Based on the clinical vignettes, discuss:

- What went well in the scenarios?
- What did not go well?
- What did you see that the provider could have done differently or better?
- What did the provider do to make the youth feel more comfortable and more forthcoming?
- What works well for you when working with young lesbians and bisexual young women?
